Transfer Information

Confused about how to make the best connection from your regular line to another MTD line? This system map highlights the key transfer points (shown in solid black rectangles) through out the MTD system.

- Locate your starting point and the line numbers that serve that area.
- Locate your ultimate destination on the map and note the line numbers that serve that area.
- Identify the location served by both your originating and destination lines. *For example, the Transit Center.* This is your transfer point.
- Turn to the appropriate schedule pages in this guide for these connecting lines.
- If you cannot find your ultimate destination, call the Transit Center at MTD-3702 and a Customer Service Representative will be happy to help.
